Dear Parents

School Closure

Following the Government's decision for all schools to close at the end of tomorrow we are sending home guidance and resources to help you support your child's learning over the closure period.

So that we can maintain communication during the closure period it would be useful to have email addresses for each family. Please email school on admin3011@welearn365.com with the email address you would like us to use along the names of your children.

It is vital that children continue to read everyday, learn their times tables and to practise spellings and mathematical calculations. Information on the appropriate expectations for each year group is available in a leaflet on the school website or from the school office.

1. Children will bring home some reading books. A reading diary can be kept in order to track their progress. <https://www.thebookpeople.co.uk/> stock a good range of inexpensive books to purchase if you would like to supplement the books you also have at home.
2. Children should continue to practise their times tables up to 12. Children from Year 2 – 6 can use their school logon for the Times Tables Rock Stars website <https://trockstars.com/> .

Your child's logon is _____

3. We have also sent home workbooks that include a range of age appropriate activities and key spellings that child need to learn.
4. We have included a suggested schedule for home learning which includes a range of themed activities.
5. Purple Mash is available on the Warwickshire online platform. Access is via your child's welearn account (www.welearn365.com) . This will also give children access to their school email account – children's use of this facility should be supervised.

Your child's logon is _____

6. The education website Twinkl is offering parents free access to home learning packs – www.twinkl.co.uk .
7. A list of other recommended websites has also been sent home.

Cont

The best way for your child to progress with their learning is to be given feedback on the work they complete. We are unable to mark their work due to the volume so please mark it with them.

We appreciate that this closure will have an impact on you and your family but we hope that these activities will support your child's learning. We will update our school website as the situation develops and we hope to see everyone back in school as soon as possible.

Mr A Simms
